

Fall 2023 Cohort

Resilient Leaders in Action

REGISTER BY OCT. 16TH

Are you passionate about community resilience and community action? We're offering in-depth workshops for local BIPOC High School students (Eugene/Springfield Area) who are inspired to learn more about community organizing!

This program is at no cost to you and offers workshops to work through what community organizing looks like, as well as a mural making session and an outdoor garden session. Plus, a \$250 stipend for your time.

We will host five workshops at our office in downtown Eugene including one outdoor garden experience.

*First come, first served. Limited spaces are available. *
